

Shop by Schedule Streamlines Student Ordering

Benefits of Shop by Schedule

- Schools with Shop by Schedule sell 15% more course materials
- Improve the student experience
- Link students directly to their required course materials
- Make ordering convenient and personalized
- Provide easy course material access

Add convenience to the ordering process by letting students bypass your school's complete course list and go directly to their schedule. With Shop by Schedule, students can enter their student ID in the virtual bookstore and immediately view and order the materials for their enrolled courses. Submit student schedules with a student identifier, and we will handle the rest.

Registration integrations improve the student experience

With a personalized virtual bookstore experience, you save students time and assure they order the correct materials. Shop by Schedule takes students directly to their courses and required materials within your virtual bookstore. This integration enhances your virtual bookstore's convenience and makes all materials easily accessible from a single location. Streamlining student access encourages students to purchase all of the proper materials before the start of class — increasing the odds of student success. **Schools with the Shop by Schedule integration sell 15 percent more course materials.**

Implementing Shop by Schedule is easy

Simply share your registration information, and we will take care of the rest. MBS Direct will provide a template with the necessary data fields and set up a FTP site for your institution that will allow for a secure transfer of information. Most institutions choose to populate their FTP site daily with new student data. We can also help you set up a real-time integration with an export out of your SIS.

Once the integration is in place, students will use their identifier to log into the virtual bookstore. They will see their specific schedule with the required course materials listed, and enjoy a personalized ordering experience.

Simple student ordering management

In addition, you will have access to view Shop by Schedule records and make edits if necessary. Through Service Center, your school maintains access to the entire scope of course material management from adoptions to student ordering. Service Center's features include:

- **Real-time access to student ordering data:** Check individual student orders and see overall trends in purchasing behaviors
- **Manage Shop by Schedule records:** Review or edit individual student records as necessary
- **Current backorder status updates:** Know right away when a book becomes available
- **Performance reports:** Number of students ordering, number of orders placed and total quantity sold
- **Quick Links:** instant access to Course Director for adoptions, Student Financial Aid/Voucher Orders, Shop by Schedule editing and your school's virtual bookstore
